NNIT expands collaboration with PANDORA

Copenhagen, December 28, 2016 – NNIT, a leading provider of IT services and consultancy, signs additional contract with PANDORA.

With the new contract, NNIT will be providing application support to one of Denmark's largest corporate MS Dynamics AX installations.

PANDORA designs, manufactures and markets hand-finished and contemporary jewelry made from high-quality materials at affordable prices. The jewelry is sold in more than 100 countries on six continents through approximately 9,000 points of sale, including more than 2,000 concept stores. Since May 2016, NNIT has run PANDORA's global IT operations, including the global IT platform for the ERP system Dynamics AX.

Besides a robust IT platform, NNIT delivers onsite support for stores and offices across the globe. With the additional contract, application support is added to the services delivered. The additional contract, which amounts in the high two-digit DKKm range, initially runs for 4.5 years.

“With NNIT we have chosen a partner who supports our future growth through the delivery of high-quality IT services” says Peter Cabello

Holmberg, CIO at PANDORA.

The agreement with NNIT is part of PANDORA's efforts to build a scalable and robust platform to support one of the largest corporate ERP-installations in Denmark. Jacob Hahn Michelsen, Senior Vice President and Head of Sales in NNIT, says:

"The contract with PANDORA marks NNIT's solid footprint in the Danish market for Dynamics AX-services. Our offshore setup is unique and enables us to provide 24/7 support for stable and secure ERP systems, which is essential to our global clients."
