# NNIT signs agreement with Købstædernes Forsikring and Popermo Forsikring

*NNIT assumes responsibility for development and maintenance of the insurance companies' shared business platform*

NNIT, leading provider of IT services and consultancy, announces that it has signed an agreement end of 2015 with Købstædernes Forsikring and Popermo Forsikring on the further development and maintenance of the insurance companies' shared business platform.

For a number of years Købstædernes Forsikring and Popermo Forsikring have worked together on the development of the shared IT platform that handles the business for both companies. They have now moved their cooperation forward and entered into an application outsourcing agreement with NNIT.

The agreement with NNIT is part of the companies' efforts to ensure a scalable and futureproof platform. The medium-sized, double-digit DKKm

agreement initially runs for three years and four months.

”It is our job to ensure the lives our policy holders choose to live. With an increasing number of customers and growth it is imperative that our clients continue to experience that we are with them and can offer attention and personal advise before and after an insurance claim, while at the same time offering competitive products quickly and efficiently. That obviously places high demands on the development and maintenance of our IT platform,” says Anders Hestbech, managing director at Købstædernes Forsikring.

John Rasmussen, managing director at Popermo Forsikring adds: ”Popermo Forsikring aims to be the natural choice by making it easy, swift and professional for our members. With NNIT we have chosen a partner who can support our technological demands thus ensuring quality, delivery and agility.”

Senior Vice President and responsible for sales in NNIT Michael Bjerregaard says: ”We very much look forward to working with Købstædernes Forsikring and Popermo Forsikring. Their clients should continue being the most satisfied policy holders in Denmark – and we will take advantage of our many years of experience with application outsourcing to ensure this.”

### **About Købstædernes Forsikring**

Købstædernes Forsikring is Denmark’s oldest insurance company and the only one to be owned by the policy holders, national and able to deliver overall insurance schemes to both private and professional clients. Købstædernes Forsikring has grown over the past 250 years by being curious and knowledgeable about the demands of the people. The solid experience combined with a strong and competitive business platform means that the clients can have the insurances that provide them an unconcerned life. For more information, please go to [www.kfforsikring.dk](http://www.kfforsikring.dk)

### **About Popermo Forsikring**

Popermo's story is the tale of enterprising police officers who decided to form their own insurance company in 1963 allowing them to offer inexpensive car insurances for their own cars. The idea was carried out and 'Popermo – our insurance' became reality. After more than 50 years in the insurance business, Popermo today offers all private insurances for members of the police force and other select groups. Popermo Forsikring is

owned by its members. For more information, please go to [www.popermo.dk](http://www.popermo.dk)
